Outcomes of the event

The function has been a result of collective hard work done by the Final Year Students and their guides. Students showed good enthusiasm to display their projects. Faculties have put maximum effort to organize the grand function. The function created a high degree of excitement in the faculty and students of the college. The students are motivated by the prizes and certificates. The first prize of project was 1000 Rs. second prize was 750 Rs. and third prize was certificates.

Feedback from final year teams

Project Fair is organized by all the departments of Sai Vidya Institute of Technology, Bengaluru on 18th May, 2017. We had represented our work in form of demonstration of running model in front of Internal and External panel of Evaluator. It was an excellent experience to demonstrate work in front of Industrial/Academic expert and other review panel. Their valuable suggestions have really remained very useful for us. We learned many things from them.

Feedback from faculty members

All the students had presented their work very effectively; some of the projects are really up to the noticeable mark and can be converted to end product. Such kind of event motivates the students to learn by self - experience and do some innovative work. All the activities have been organized in very nice manner. The ideas are taking a shape in form of projects; some of the projects are very useful for the society. It is really combination of theory and practical. Students can be inspired largely by such kind of activities and need to organize every year.
